About the job

Job Description: Data Scientist – AI/NLP Focus

Location: Greenwood Village, CO (Hybrid – 2–3 days onsite/week)

Duration: W2 Contract (Budget approved; potential for extension)

Pay Range: DOE (\$65-\$70/hour+)

About the Team & Projects:

Join our Fortune 500 client’s Data Science team, a high-impact group driving AI innovation across the organization. You’ll contribute to flagship initiatives like:

- A classification model that routes customer escalation tickets to the right teams using NLP and metadata.
- An internal LLM-based summarization tool transforming long-form customer feedback into actionable insights.
- Customer Journey Feedback: Centralizing data sources to uncover pain points and improve customer experience.

Responsibilities:

- Build and deploy ML models focused on classification and NLP
- Collaborate with stakeholders to understand business pain points and translate them into data-driven solutions
- Work with rich text data (e.g., escalation tickets, NPS surveys, metadata) to extract insights
- Integrate multiple data sources (10+) and navigate existing data lakes (AWS)
- Contribute to model enablement using tools like Airflow and MLflow
- Document and present findings to technical and non-technical audiences

Requirements:

Required:

- 4+ years of industry experience in data science or ML
- Strong Python and SQL skills (live coding challenge)
- Experience working with text data and NLP techniques

https://www.linkedin.com/jobs/view/4293842396/?alternateChannel=search&eBP=CwEAAAGZSpKQjv4PR41dIFJoZC3B4WqFVrgHUrGb9txBNRAg1fRr7_vixyO...

1/4

- Ability to understand business context and communicate effectively with stakeholders
- Familiarity with cloud platforms (AWS preferred)
- Curiosity and initiative in exploring data and building models

Nice to Have:

- Experience with LLMs, embeddings, tokenization, and prompt engineering
- Familiarity with XGBoost, Airflow, MLflow
- Telecom industry experience
- Scala experience (for legacy workflows)

Interview Process:

- Round 1: Resume walkthrough + live coding (no take-home)
- Round 2: Panel interview focused on problem-solving and business understanding
